

FILTEC EOM Notification

End-of-Manufacture (EOM) Notification Date: 01-01-2020

Dear Valued Customer,

As Filtec continues to invest and develop on our next generation of inspection products, we have completed a full evaluation of current product portfolio.

Based on the availability of manufacturing components and spare parts, FILTEC is announcing an End of Manufacture Program (EOM) for the following products on the attached schedule.

While manufacturing has ceased on these products Filtec will continue service and support efforts on a best available basis for as long as possible.

Filtec will also continue to offer upgrade programs and pathways for all customers wishing to bring their existing systems to our next generation products.

- The attached listing shows the current products that have reached EOM and the upgrade/replacement pathway for each product.

Should you have any questions regarding any part of this program including loyalty upgrades and spare parts availability please provide your contact information on the Filtec website. The appropriate staff will contact you to address any questions you may have.

Thank you for your continued support of the Filtec family of inspection products.

Regards,

FILTEC
